### FTI BOOKING ASSISTANCE

### 2.2 Query options flight

### 2.2.1 Charter flight

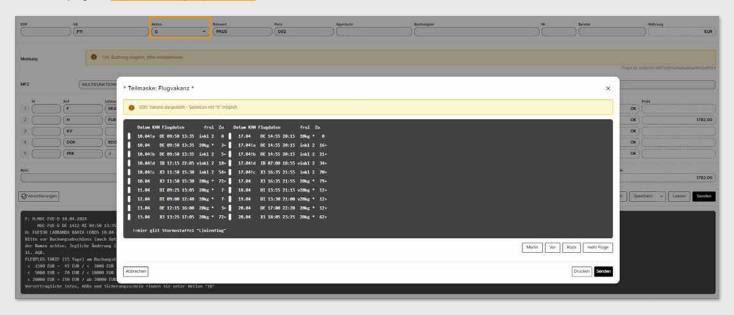

The flight route must be entered. Use the 3-letter codes and the desired outbound and return dates for the query.

The query is made with action "G"

Select outbound and return flight with "X" and continue with Enter.

FTI full charter flights marked with "s"

Full charter program: <a href="https://www.ftigroup-service.de">https://www.ftigroup-service.de</a>

### FTI BOOKING ASSISTANCE

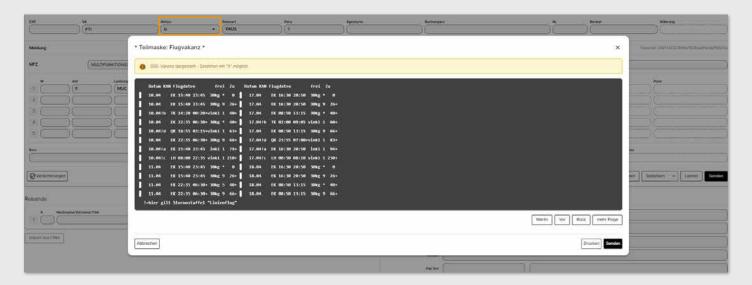

### 2.2.2 Scheduled flight (PauLi)

The flight route must be entered. Use the 3-letter codes and the desired outbound and return dates for the query.

The query is made with action "G"

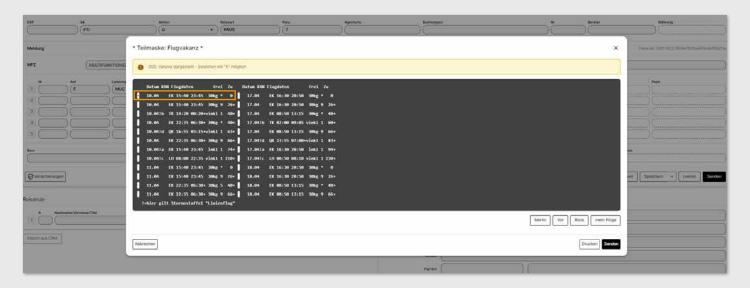

Select outbound and return flight with "X" and continue with Enter

The query is the same like charter flight, the vacancy mask contains different information

Next step: detailed view of flight times, possible stopovers incl. times are displayed

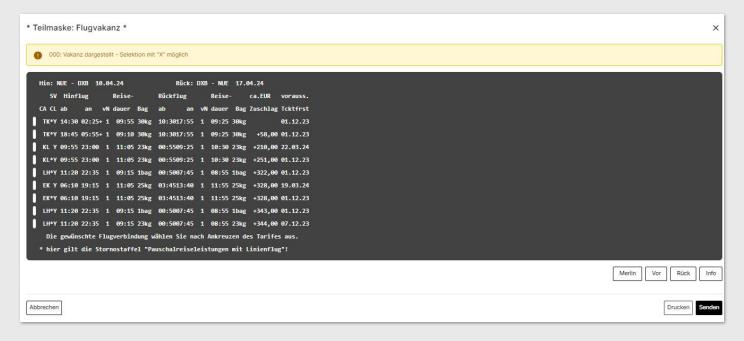

View if charter and scheduled flights are available on the desired date

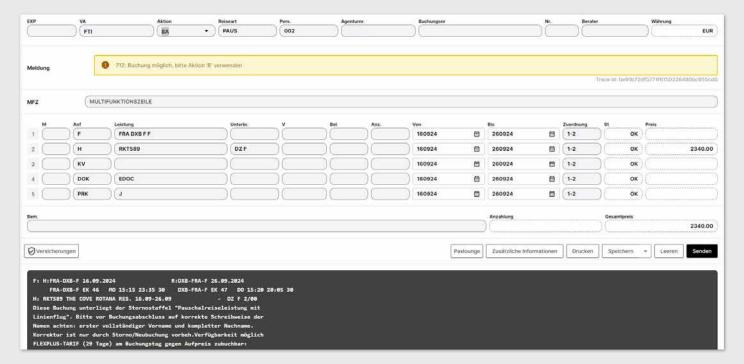

### FTI BOOKING ASSISTANCE

That's the View if only scheduled flights are available on the desired date Select the desired flight with "X" and confirm the fare conditions, if applicable

#### Add hotel and accommodation code

The query shows the query of a package tour with scheduled flight to Dubai Frankfurt to Dubai with Emirates

### FTI BOOKING ASSISTANCE

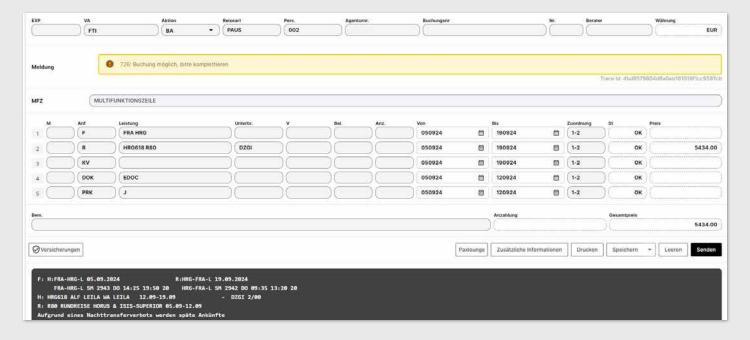

#### 2.3 Nile cruises

### Nile cruises without a extension

#### Nile cruises with a extension

Compared to the standard Nile cruise, HRGxxx is supplemented with the EDV code of the desired beachhotel and the last 3 characters of the Nile cruise remain the same. In addition, enter the accommodation and meals of the beachhotel in the field "Unterbr." and the query works without an additional hotel line.

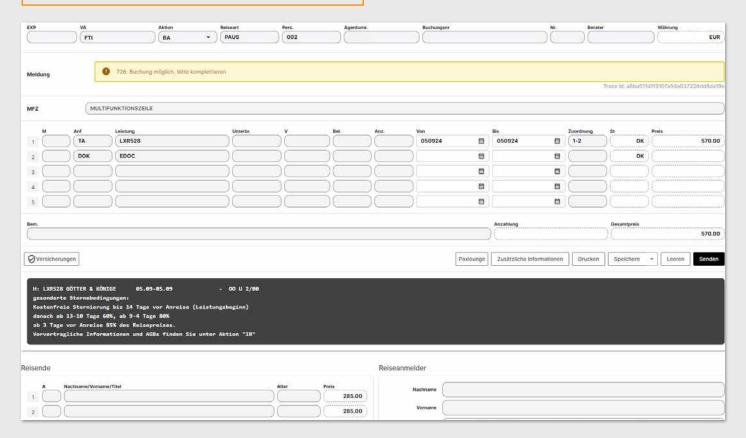

### FTI BOOKING ASSISTANCE

### **Booking excursion package**

The start date of the excursion package must be exactly the same as the start date of the Nile cruise. The main booking (flight and cruise and possibly bathing hotel) must be linked to the excursion package booking via the remark line

The excursion package must always be entered in a separate booking

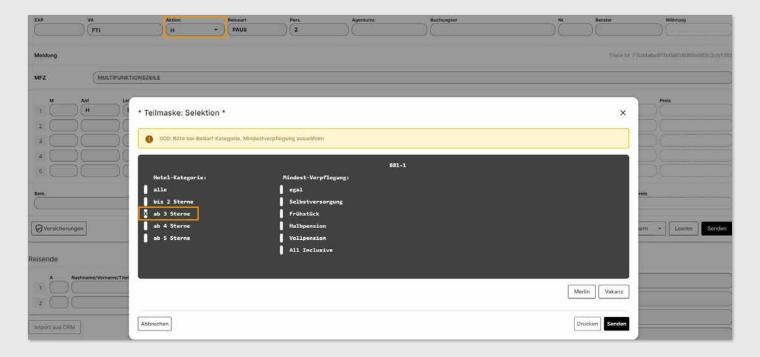

### FTI BOOKING ASSISTANCE

### 2.4 Hotel query and information

### FTI BOOKING ASSISTANCE

### Get detailed information about the hotel you want

### With action "I" and set an "X" in the hotel line.

This method also works with the travel type "BAUS" and in an existing booking

# APPLICATION TIPS FTI BOOKING ASSISTANCE

### 3. FTI booking queries module (travel type BAUS)

### 3.1 Query options Flight

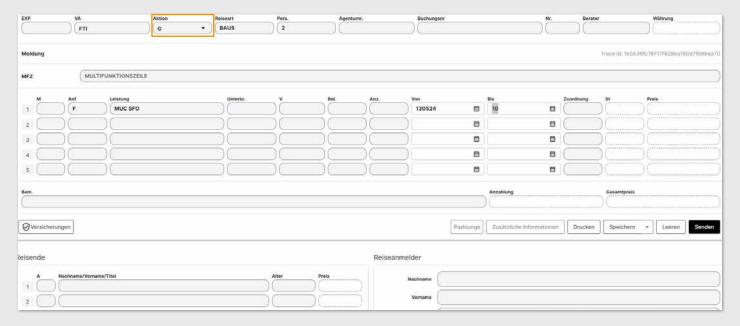

Our module programme offers a wide range of options to cover all requests.

All flight enquiries are started with the action "G" after entering the desired flight routes.

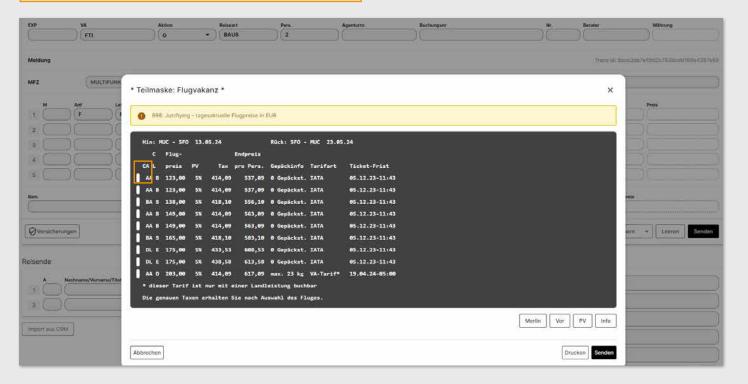

### FTI BOOKING ASSISTANCE

### 3.1.1 Flight Return (classic)

All available flights with details like price info, baggage info etc. are displayed. Select the desired flight with "X" and confirm to access the flight details

For the fare type "VA Tarif", any land service must be booked as well. For all other fare types, the flight can also be booked individually.

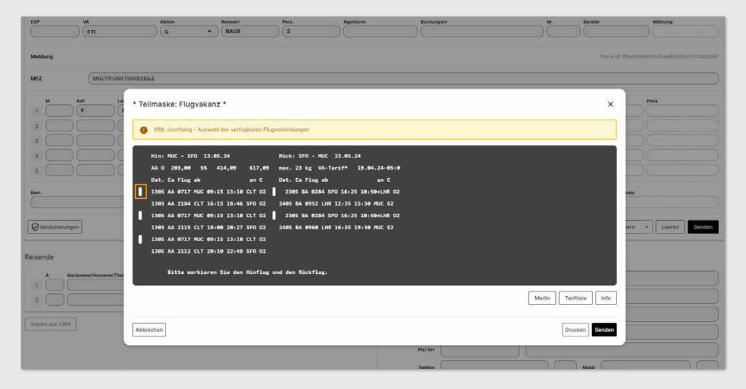

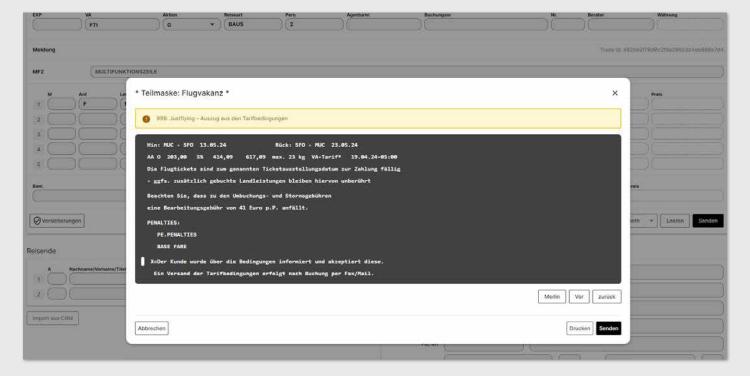

### FTI BOOKING ASSISTANCE

Now select the desired outbound and return flight with "X".

The fare conditions then will be displayed. It is essential to go through these with the customer. (Differences to the conditions according to the GTC are possible).

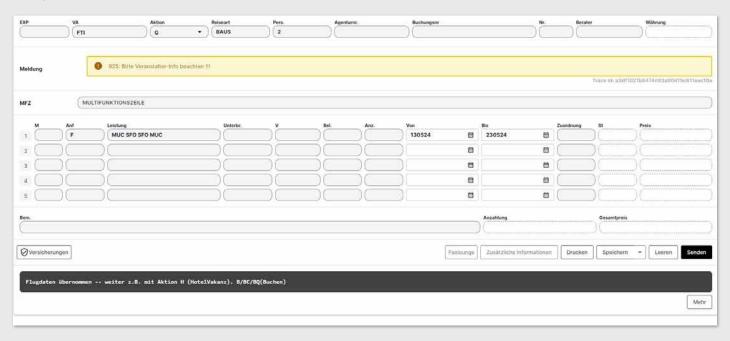

When the customer has taken note of the conditions, please confirm in the corresponding field.

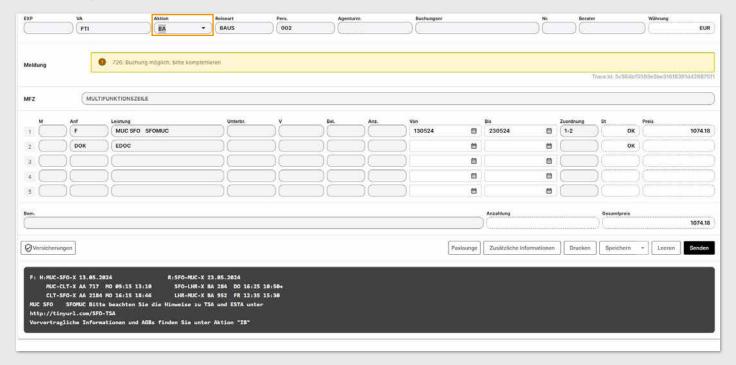

### FTI BOOKING ASSISTANCE

The flight dates now will be taken over

Check bookability with action "BA"

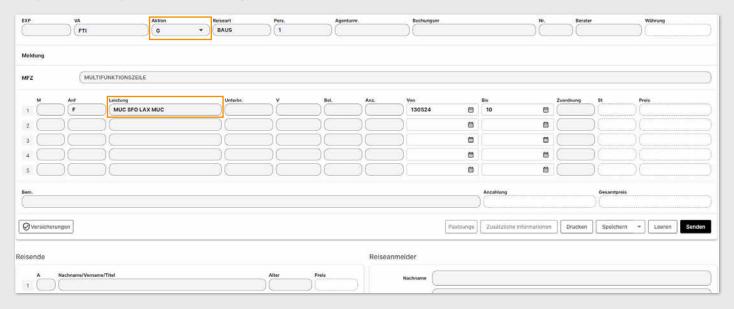

### FTI BOOKING ASSISTANCE

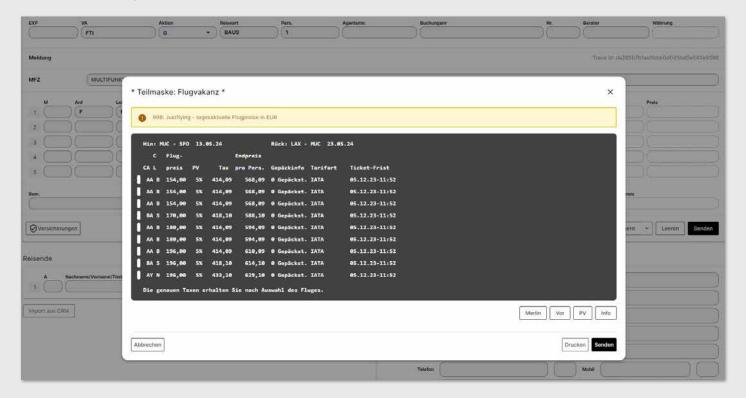

### 3.1.2 Open-jaw flight

The query follows the same procedure as in point 3.1.1 The desired open jaw route is entered directly in the flight route when the query is made.

The system automatically searches for the desired flights.

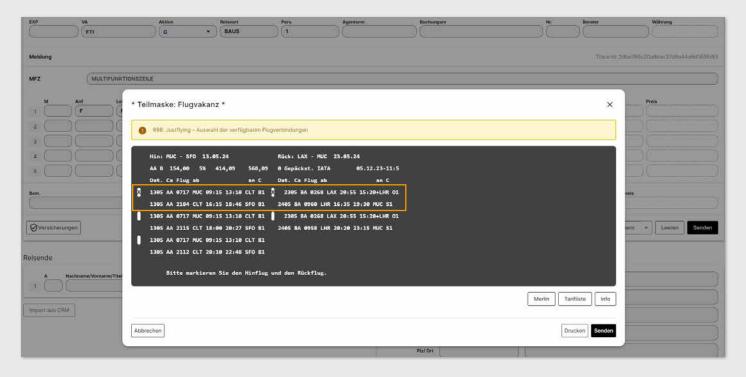

Outbound flight to SFO, return flight from LAX is displayed. Now mark the desired flight times with selection "X"

### FTI BOOKING ASSISTANCE

Then continue as in point 3.1.1

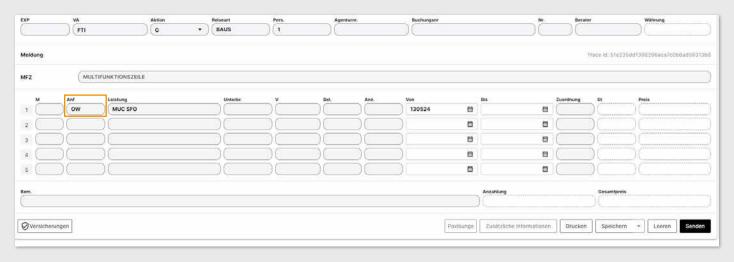

### FTI BOOKING ASSISTANCE

### 3.1.3 Oneway Flight

The query follows the same procedure as in point 3.1.1 In the field "ANF" "OW" (Oneway) is entered instead of "F" for the query and the field return date stays empty

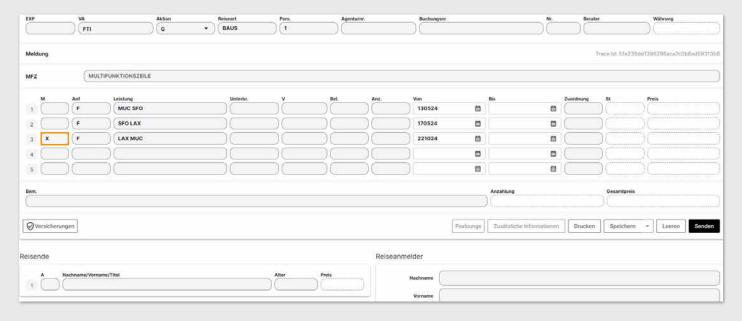

### FTI BOOKING ASSISTANCE

### 3.1.4 Stopover Flight

All requested flight routes are entered individually and only the "VON" date is filled in in each case. The line of the reversal point of the journey (longest flight route of the query) must additionally be marked with an "X" in the field "M" before the request. Then this query is analog to our description from point 3.1.1

### FTI BOOKING ASSISTANCE

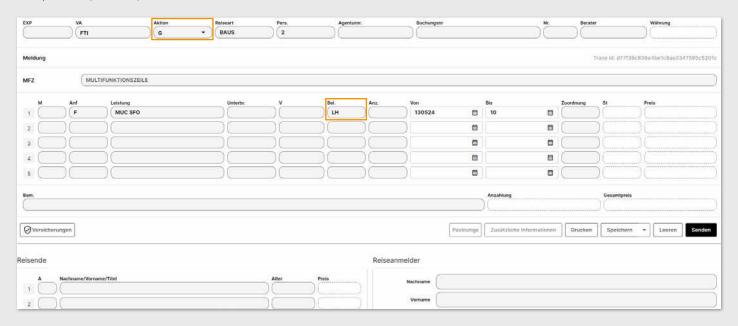

### 3.1.5 Select flights perfectly

Many criteria, such as airline and class of carriage, can already be narrowed down in the query with action "G"

#### Limit the query to one airline:

Selection via the field "Bel" - enter the airlinecode here

Example for LH (Lufthansa)

### Limit query to several airlines (max. 5 airline are possible):

Example for LH (Lufthansa) and British Airways (BA)

Enter the desired airline codes in the query (action "G") in an additional e-line with a "+". (like +LH,BA)

### Limit the query to a specific class of transport / fare type:

Selection via the field "UNTERBR" - enter the corresponding Code here. The following options are available:

- D Direct flight
- N Nonstop flight
- P Premium Eco
- **C** Business Class
- **F** First Class
- **VA** Tour operator fare
- **CO** Consolidator fare
- IATA Fare/ Published Fare

### Combinations also possible e.g:

**VAN** Tour operator fare with non-stop flight

**CN** Business Class with non-stop flight

### OKING ASSISTANCE

Note the desired flight class in the field "Unterbr" during the query (action "G").

**Example with "C" for Business Class with Lufthansa:** combination/ selection of class of carriage in the field "Unterbr" and airline in the field

Return flight is scheduled to depart from XX o'clock

in the destination area

Return flight to depart destination by XX o'clock **RFBIS** 

It is also possible to enter two additional "E" Lines

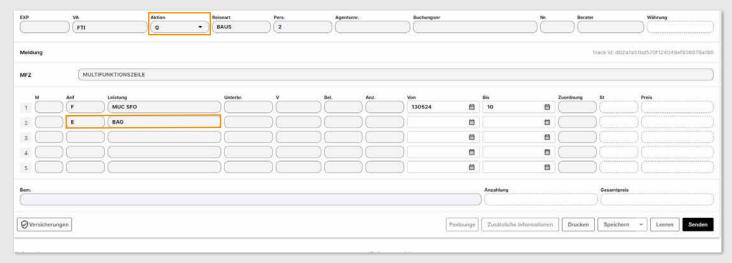

### FTI BOOKING ASSISTANCE

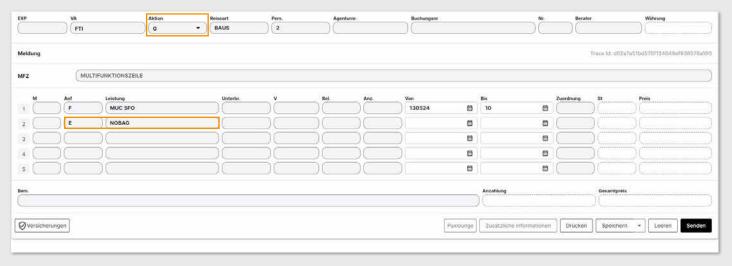

### Query for airfares with included baggage

In the query (action "G"), enter an additional E line with the word "BAG" and only fares incl. free baggage allowance appear

### Query for airfares without included baggage

In the query (action "G") enter an additional E-line with the word "NOBAG" and only fares incl. free baggage allowance appear

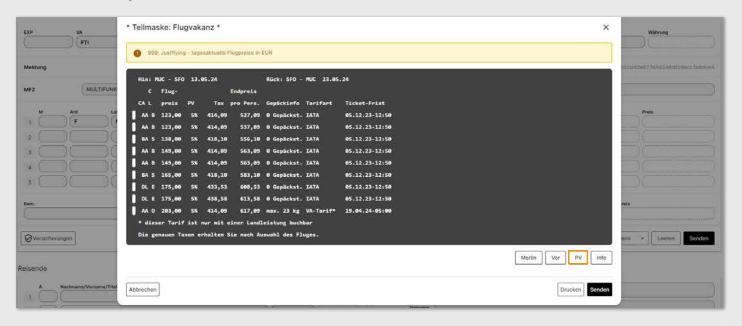

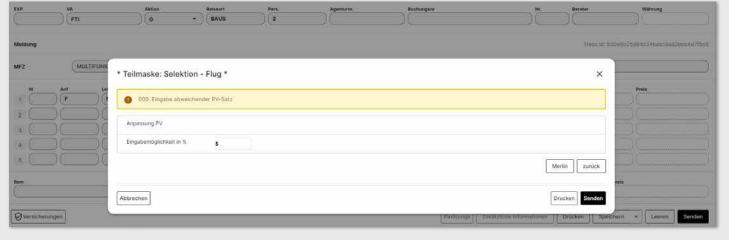

### FTI BOOKING ASSISTANCE

#### 3.1.6 Adjustment of the commission

An individual adjustment of the standard commission is possible when queried via the field "**PV**".

The airfare is automatically calculated with the new commission.

In addition, a flight service fee can be charged for each flight-only booking.

Example for an extra charge with 50,00 Euro:

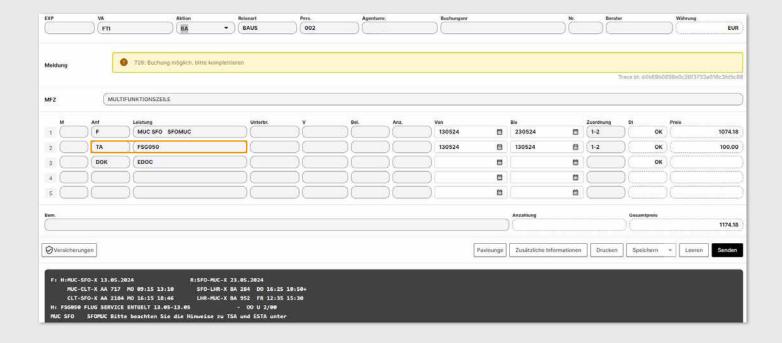

Action "BA" in a new service line enter request "TA" and in the field "Leistung" FSG050.

This will result in an additional 50,00 Euro flight service charge per person.

The amount for this fee can be adjusted individually.

#### 8.4 General Information

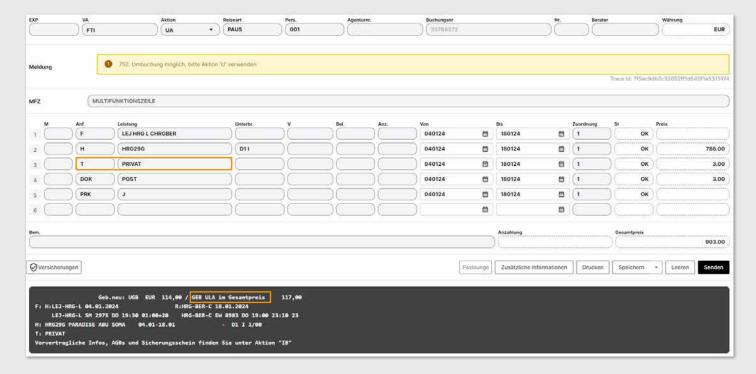

### 8.4.1 Query private transfer

We offer the possibility to add a private transfer to a booking via CRS.

### So funktioniert's:

When making a booking request action "BA", enter "T" in the field "Anf" and "PRIVATE" to the field "Leistung" in a new line of your CRS and the correct surcharge for this service will automatically be displayed. Private transfers are available in all destinations where they are offered by the FTI GROUP.

With the travel type PAUS it is sometimes possible to request a private transfer after booking with action "UA" and then to book with action "U".

# FTI BOOKING ASSISTANCE

### 8.4.2 Query empty stays

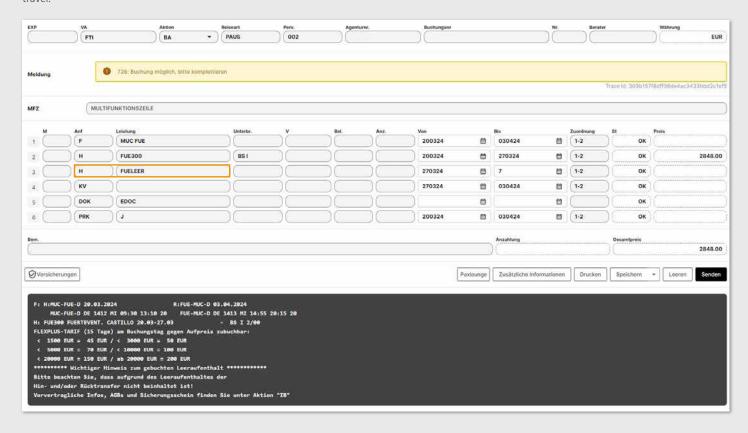

Can be booked via CRS!

The Query works via an extra line Anf: **H** and code **XXXLEER** and the corresponding date in Toma. (Please replace XXX with the corresponding destination/3-LC).

In case of an empty stay, only one one-way transfer or no transfer at all is included, depending on the period of the empty stay. The arrangement is as follows:

- if the hotel stay takes place directly after arrival, the one-way transfer to this Hotel is included
- if the hotel stay takes place at the end of the journey (Day of Departure return flight), the return transfer to the airport is included.
- if the hotel stay takes place in the middle of the journey, no transfer is included.

A text module points this out again when booking: It is not possible to request empty stays for the MIXX and PACK types of travel.

### FTI BOOKING ASSISTANCE

### 8.4.3 Query Rail and Fly

FTI offers a travel service to/from the airport for short-distance destinations in cooperation with Deutsche Bahn AG, which can be booked on request.

However, please note the following when booking:

- Rail & Fly can also be booked until the day of departure! For bookings at short notice, this can only be done if the booking has been paid by credit card.
- The Rail&Fly ticket can only be booked for all travel participants on one booking, never for individual participants.

### FTI BOOKING ASSISTANCE

### 8.4.4 View Filekey (PNR)

For bookings with scheduled flights and dynamically packaged flights, the Filekey (PNR) of the flight can be viewed directly in the booking screen of your CRS.

To do this, simply display the desired booking with action "D" Bookings where no filekey is required are marked with "NO PNR".

If the airline file key is required (e.g. for a direct seat reservation), please do so via the flight plan displayed (<a href="https://www.checkmytrip.com">https://www.checkmytrip.com</a> or <a href="https://viewtrip.travelport.com">https://viewtrip.travelport.com</a>)

### FTI BOOKING ASSISTANCE

### 8.4.5 Log out transfer

It is possible to cancel transfers included in the booking up to 30 days before departure if the customer does not wish to use the transfer.

#### Details:

First display the booking concerned with action D. In the next free line ANF: enter "T" and service "KEINTR" and check the cancellation of the transfer with action "UA". If this is possible, you will receive the information that no transfer is included any more. Then confirm this with action "U". The agency on site will automatically receive the information that no transfer is to take place for this booking. In addition, the customer will also receive a modified booking confirmation the next day.

### Important:

A subsequent reactivation of the transfer is no longer possible after this action has been carried out. There will also be no refund on the price of the trip. This function only applies to FTI package tours (travel type PAUS) and bookings without scheduled flight or flight with "X" identifier.
